# SOURCING YOUR PRODUCTS IN CHINA

Quality - Protection - Satisfaction

ETP is a British and Irish owned company founded in 2006 and based in Beijing, China.

We provide a **one-stop service** for product sourcing and brand development, from design services to quality control, manufacture and delivery.

**Our goal is simple** - to provide all our clients, both large and small, with a safe, value added, quality assured means of doing business in China and the Asia Pacific region.

## SOURCING & PRODUCT DEVELOPMENT

Using only trusted manufacturers we provide you the best price, product and quality within your time frame.

Visits to China to manage your orders are time consuming and expensive. Searching for new suppliers and manufacturers without reliable local knowledge can often be frustrating and fruitless.

At ETP, we recognise that the two main sourcing issues facing every business are quality and price. With Mandarin speaking Western staff on the ground in China, we focus on delivering the best possible product within your target budget.

Looking after your company's best interests in China, we keep your product development activities on track and in safe hands.

## MANUFACTURE & QUALITY CONTROL

ETP has long term partnerships with European businesses enabling them to meet their manufacturing and quality standards.

We understand the issues facing day-to-day control of manufacturing in Mainland China and are dedicated to helping you overcome them.

Through our extensive experience and unequalled local knowledge, we operate a streamlined service that provides you with a single port of call for factory audits, manufacturing services, quality control and delivery. We know that having your product delivered on schedule and meeting all the standards and requirements of your market is what matters to you.

Utilising this services allows you to concentrate on your day to day business activities while being represented in China and Asia Pacific by a competent team of experienced professionals with only your best interests at heart.

We are here to answer your questions and offer advice at any time.

## DESIGN & BRANDING

Having created the perfect branding package for numerous businesses, ETP understands the value of a sharp image as well as quality branded goods to promote your company.

We have an extensive range of goods for you to put your brand to and provide a wealth of unique product ideas including promotional items and corporate gifts. We also assist in developing new products from the drawing board to the shelves.

We also provide a full list of digital design services. With over 10 years of design and branding experience, our creative team has a long and proud history of providing unique logo creation, product packaging and POS design, e-commerce website development and much more.

We specialise in uniformly matching your corporate culture in all aspects of your company's image.
